Verb Tenses and the Passive

Put the Time on the Verb

Tense

tense（时态）= 动词上的时间

- finite verb（限定性动词）带 tense：它告诉我们这件事发生在什么时候；它的 subject（主语）就是做这件事或处于这个状态的人或物。
- 一个 verb（动词）有 principal parts（四种基本形式）：base form（原形）practice、present participle（现在分词）practicing、past（过去式）practiced、past participle（过去分词）practiced。
- 除了 present simple 和 past simple，其他 tense 都由 helping verb（助动词）+ 这四种形式之一组成（见下表）。
- sentence 或 passage 里的 time words（时间词）决定用哪个 tense：yesterday、in 1881、since、by the time、now、every day。

Our team **has practiced** since August.
has + past participle

Our team **practiced** yesterday.
past

Tense	Form	Example	Time words
present simple（一般现在时）	base form；第三人称单数 subject（he / she / it / our team）加 -s	Our team **practices** after school.	every day, usually, always
present continuous（现在进行时）	am / is / are + -ing	The players **are practicing** now.	now, right now, this week
past simple（一般过去时）	past form（加 -ed，或不规则变化）	The team **practiced** yesterday.	yesterday, last week, in 1881
past continuous（过去进行时）	was / were + -ing	At five o'clock, the players **were practicing**.	at five yesterday, while, when
present perfect（现在完成时）	has / have + past participle	The team **has practiced** since August.	since, for, this season
past perfect（过去完成时）	had + past participle	By then, the team **had practiced** twice.	by the time, before, earlier
future simple（一般将来时）	will + base form	The team **will practice** tomorrow.	tomorrow, next week

Test.

1. 找 finite verb（或空格）和它的 subject。
2. 找 time words：这件事是现在、过去某个时候、过去到现在、还是过去更早？
